Dear Mr Baron,

Answering your letter of 9 May:-

I have not discovered any copy of a pamphlet entitled 'Fascism for Old England' though I have not had and do not have time to go searching in masses of material.

As for the title-tattle you have encountered and quote regarding my ex-wife, suffice it to say that I have been and remain totally unaware that she ever had a niece, as I am absolutely sure she never mentioned to me the existence of such. I note that nevertheless you have distributed this smutty stuff to others. You do not disclose who the smut provider in France is.

Yours sincerely,

Colin Jordan
